SAUCON

Saucon Safe Driver Program

Saucon continues to help operational efficiency with an add-on feature focusing on improving safe driving habits.

The Saucon Safe Driver Program enables fleets to monitor vehicle and driver operations by providing both in and out of the vehicle feedback on driver safety habits.

Benefits and Features for Drivers:

In-Vehicle Feedback

- Non-distracting quick alerts
- At-a-glance score status
- Detailed daily performance view
- · Ability to dispute events

Benefits and Features for Administrators:

- Configurable display settings
- Percentage weight for safety categories
- Dispute management functionality
- Daily Driver Performance Report
- Driver Performance Summary Report
